# SC17 OpenSHMEM BOF: OSSS Reference Implementation

- Using OpenMPI oshmem & UCX example code as a starting point/help
  - Contributed some issues/fixes to OpenMPI @ github
- 1.4 RC: Works with both UCX 1.2.x release and is tracking github code
- Utility of PMIx
  - guessing some people will be at that BOF too
- Jim's discussions on contexts
  - SOS code as inspiration
  - Working to add proper context support
- Testing by our project members recently
- Thanks to LANL, Rice, and DOD
- Have 1.4 fork of <https://github.com/openshmem-org/openshmem-examples>
  - Needs new demo programs
- Migration of new code from bitbucket into github
  - Branching of gasnet code
